

# ONE BIG WIN AND STRONGER DEFENSE THAN EVER BEFORE

## What made this possible? YOU

In 2015 and 2016, you used your voice to tell your legislators to move forward with clean energy, demand clean drinking water in our communities, and conserve our state's incredible natural resources.

But we were only able to do that because of support from members like you. Together, we are making a difference.

An important part of our work is holding our elected officials accountable. This scorecard tells you whether your representatives in Lansing listened to you and your neighbors, or if they listened to special interests.

### 1 Tell your legislators you know the score

It only takes a minute to say thanks—or to say no thanks—to your legislators.

### 2 Donate

We could not accomplish our mission without the generous support of our members, please make a donation so that we can continue fighting for clean air and clean water in your community and continue our stewardship of Michigan's unparalleled natural resources.

### 3 Spread the word

Share this scorecard with your friends and family so they know the score of their elected officials, too.

You can do all of this  
at [michiganlcv.org/scorecard](http://michiganlcv.org/scorecard)

## TOWARD A CONSERVATION MAJORITY

Because Michigan LCV is both political and nonpartisan, we don't work toward a Democratic majority or a Republican majority.

Our goal is to build a pro-conservation majority of state lawmakers from both parties who support protecting the health of our communities by tackling the big issues facing Michigan's land, air, and water.

### HOUSE Conservation Majority Breakdown

\* Total number of legislators in the Michigan House exceeds number of House districts due to several special elections, early resignations from office, and the untimely passing of two Representatives during their terms.

### SENATE Conservation Majority Breakdown
