Michigan League of Conservation Voters - Our Water Our Vote Activist Program

Join the Our Water Our Vote Activist Program at Michigan League of Conservation Voters!

The Michigan League of Conservation Voters (MLCV) is seeking participants for the Our Water Activist Program through our Political and Outreach department. This is a three month training and engagement program that offers real-world organizing and training pertaining to protecting our environment through community and nonpartisan political engagement.

The program focuses on building power, presence, and relationships on behalf of our organization and organizing community members to get involved in making the protection of Michigan's land, air, and water a political priority. This position will advocate for strong environmental protections, and build and amplify the voices of communities of color and other key constituencies who are disproportionately impacted by environmental issues. **Program participants will develop the experience to work on advocacy and electoral campaigns and will be motivated to build a strong, diverse base of supporters for action on land, air, and water issues in our regions and across the state.** The ideal participants will be interested in learning more about community organizing, building leadership in communities, and creating lasting environmental change.
